

## QUALITY POLICY

---

The organization and functioning of the Company based on full quality management system according to UNI EN ISO 9001, is of fundamental importance to APS SpA. The Company commits itself to supply engineering services and products and to build Industrial Plants by applying defined and planned process for the following purposes:

- ✓ to comply with contractual and regulatory (both technical and law) requirements,
- ✓ to satisfy Client's needs and expectation,
- ✓ to assure that all the activities in the internal Organization are carried out efficiently,
- ✓ to achieve all goals, in compliance with the schedule and the requirements stated by the reference data and specifications.

Company Management believes it is essential to optimise the reliability of supplied Services/Products, in order to guarantee the regular operation of the Plants, the safe operability, the safety of the Plant personnel and the respect of the environmental protection requirements.

The Company adopted a Quality Management System to monitor the activities and assure congruence between the characteristics of the supplied service/product and Client's requirements.

In order to specify the Quality commitments, the Company implements a program of the required activities, provides the necessary Resources and defines the aspects to be monitored in order to follow the correct development of the performance. It is effective for both Client's satisfaction and Market expansion, internal expectations fulfilment and continuous improvement of Company performance.

All Company Personnel are requested to strive to ensure a continuous, correct and documented application of the Quality System. Thanks to effort and cooperation from all of us important results, set out by Top Management, can be achieved. In this regard, it is essential to support APS internal Quality Service, in order to verify the validity of Quality System, update and improve it, providing Quality Service with the information of the analysis of the results and data received from Clients and Users.

July 2018

Antonio Quadrato

(Founder and Chief Executive Officer)
